Maybe even better than free.

Our service is completely free for everyone. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. If only we could, we surely would! On the other hand, using file can actually save you money. You decide who you want to share your files with. Simply upload your file and share the link. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Why pay storage fees for a file that you just wantedto send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. There are no restrictions onthe number of times a file can be downloaded. We have no file size limit. You don't need any special software installed to be able to download your files. Usingfile, you can circumvent those limits without paying to upgrade your team chat service. The cost of that data transfer is covered by your internet service or thedata plan on your phone. No account or credit card is required to get started. So try our free and simple filehosting service now. File is free to use with nogotchas and no hidden fees. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Just upload the file youwant to share with your friends and we send you a download link to your file. You can upload any type of file (movies, music, documents, images, zip files andmore). Unfortunately, we can't make that part free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Files transferred the old-fashioned way tend to pileup and be forgotten about, eventually costing you money in data storage fees. filehosting provides an easy possibility for you to send large files to your friends.It is also allowed to link to the download page from websites and communities. Any file in any format can be uploaded and downloaded for free. Keep yourfiles private, or send your download links only to friends or family. Files can be downloaded from any computer from our high speed servers. You can give this download link to your friends by mail or instant messenger.
