Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. You can give this download link to your friends by mail or instant messenger. Keep your files private, or send your download links only to friends or family. Simply upload your file and share the link. So try our free and simple filehosting service now. Files can be downloaded from any computer from our high speed servers. You don't need any special software installed to be able to download your files. File is free to use with no gotchas and no hidden fees. You can upload any type of file (movies, music, documents, images, zip files and more). Any file in any format can be uploaded and downloaded for free. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. No account or credit card is required to get started. Unfortunately, we can't make that part free. It is also allowed to link to the download page from websites and communities. Our service is completely free for everyone. Just upload the file you want to share with your friends and we send you a download link to your file. We have no file size limit. You decide who you want to share your files with. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. If only we could, we surely would! On the other hand, using file can actually save you money. Why pay storage fees for a filethat you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Usingfile, you can circumvent those limits without paying to upgrade your team chat service. When you use file, you avoid storing the file you're sending in yourcloud storage or mail server. filehosting provides an easy possibility for you to send large files to your friends.
