If only we could, we surely would! On the other hand, using file can actually save you money. We have no file size limit. Unfortunately, we can't make thatpart free. You don't need any special software installed to be able to download your files. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Keep your files private, or send your download links only to friends or family. Our service is completely free for everyone. You can upload any type of file (movies, music, documents, images, zip files and more). You can give this download link to your friends by mail or instant messenger. You decide who you want to share your files with. Files can be downloaded from any computer from our high speed servers. It is also allowed to link to the download page from websites and communities. No account or credit card is required to get started. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Any file in any format can be uploaded and downloaded for free. There are no restrictionson the number of times a file can be downloaded. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you moneyin data storage fees. Just upload the file you want to share with your friends and we send you a download link to your file. filehosting provides an easypossibility for you to send large files to your friends. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data isbeing transferred between your computer or phone and our servers, then from our servers to your friends device. Simply upload your file and share the link. Sotry our free and simple filehosting service now. The cost of that data transfer is covered by your internet service or the data plan on your phone.
