When you use file, you avoid storing the file you're sending in your cloud storage or mail server. So try our free and simple filehosting service now. There are no restrictions on the number of times a file can be downloaded. Any file in any format can be uploaded and downloaded for free. No account or credit card is required to get started. Simply upload your file and share the link. Using file, you can circumvent those limits without paying to upgrade your team chat service. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone andour servers, then from our servers to your friends device. It is also allowed to link to the download page from websites and communities. Why pay storage feesfor a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within theirapps. Our service is completely free for everyone. You can upload any type of file (movies, music, documents, images, zip files and more). You decide who youwant to share your files with. Unfortunately, we can't make that part free. Alternatively you can choose to share your download links on blogs, forums andsocial networking sites. File is free to use with no gotchas and no hidden fees. We have no file size limit. Just upload the file you want to share with yourfriends and we send you a download link to your file. filehosting provides an easy possibility for you to send large files to your friends. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. You can give this download link to your friends bymail or instant messenger. You don't need any special software installed to be able to download your files. Files can be downloaded from any computer fromour high speed servers. The cost of that data transfer is covered by your internet service or the data plan on your phone. This is easy, fast and
